If you are undergoing IVF, IUI please read the following. Thank you and be sure to let us know by signing below.

In China and the US there are many herbalists that qiye Chinese herbs while woman are cycling on hormones. If your RE does not want you to take herbs during your stimulation we will not give you herbs. I am happy to treat you with acupuncture alone. Studies have shown that when acupuncture is used in conjunction with IVF not only does the pregnancy rate increase but the take home baby rate increases as well in the acupuncture group, there are fewer miscarriages and ectopic pregnancies and fewer multiple births.
